The Participant selects the Betting Opportunity, the type of Bet (described in clause 7 of this Game Plan), amount of the Bet (not exceeding the monetary balance on his User Account (or Temporary User Account) and then enters the Bet by clicking on the designated button in the Application. The entered Bet is Placed once it is accepted by the Operator by storing it into the Central System. Once the Bet is placed (i.e., stored into the Central System of the Operator) a Ticket is issued which includes details of such Bet. If the Bet is not accepted by the Operator or is it is amended by the Operator (for example due to change of Odds, exceeding the maximum permitted Bet amount (the sum of the Participant's Bets), or the suspension of the acceptance of Bets on a certain Betting Opportunity) it will be sent back to the Participant, without being stored into the Central System. In such case, the Participant has the right to decide, whether such amended Bet will be Placed or cancelled. The Operator is entitled to refuse acceptance of any or to set the Bets limits, even without justification; however, always in compliance with provisions of section 7, par. 2 c) of the Gambling Act.

6.5 A placed Ticket (i.e. an odds bet) may only be cancelled under the conditions set out in advance by the Operator, and cancellation of the Ticket must be made under the conditions set out within the time of the odds change, but no later than 15 minutes from the time of Placing the Bet, unless otherwise expressly stated in this Game Plan, and if such option is activated by the Operator in the Application. However, a Saved Ticket cannot be cancelled after the time specified as the end of the acceptance of bets on any of the Betting Events contained in the Bet/Ticket and/or if the Saved Ticket contains a LIVE Bet within the Odds Offer. Cancellation of a Bet/Ticket must not be abused by the Participant.

6.6 Operator may suspend accepting Bets for any Betting Opportunity at any time or limit the Betting Opportunity in a certain manner (e.g., by setting a specific Bets amount, by limiting the number of Betting Opportunities on the Ticket etc.), even without stating a cause.

6.7 Operator has the right to define the time of beginning and the end of acceptance of the Bets on each of the Betting Events. The end of acceptance of the Bets on individual Betting Events is published in the Odds Offer. No Bets may be accepted on Betting Events that have already started, excluding LIVE Bets as set out below and Betting Opportunities of a long-term nature. 7. TYPES OF BETS

7.2 AKO Bets are Bets simultaneously on two or more Betting Opportunities and/or on two or more MatchCombo Bets. The total Odds of AKO Bets equals the multiplier of the Odds of individual Betting Opportunities (and/or MatchCombo Bets), while the total Odds are rounded to two decimal places according to mathematical rules.

7.3 Another type of Bet in which the Operator allows the Participant to combine multiple Betting Opportunities on a single Ticket is so called "Multiple Bet". After the Participant has chosen Betting Opportunities, the Central System will generate the total number of individual bets that can be placed on the Ticket by generating reciprocal combinations. The Central System will not create combinations of Betting Opportunities that do not allow the specific conditions assigned to each Betting Opportunity. The Participant may exclude from the "Multiple Bet " certain combinations of bets determined by the number of Betting Opportunities in the bet. E.g., when 6 Betting Opportunities are included in the "Multiple Bet", the Participant may determine that he discards type 6 AKO Bets, type 4 AKO Bets and SOLO Bets. In this case, the Central System will create 6 type 5 AKO Bets, 20 type 3 AKO Bets, and 15 type 2 AKO Bets. A Participant may include in the "Multiple Bet" one or more Betting Opportunities, which will be repeated in each bet, i.e., will be constants. The total number of combinations in the "Multiple Bet" will not change, only the number of Betting Opportunities in one bet will increase. In the event of an incorrect bet on any constant, all bets in the "Multiple Bet" will be losing. The Participant may determine different amounts of Bets for individual types of combinations, e.g., 15 CZK for type 5 AKO Bet, 10 CZK for type 4 AKO Bet, 5 CZK for type 3 AKO Bet etc. Total Bet for the "Multiple Bet" is determined by the sum of the individual Bets. "Multiple Bet" cannot be combined with other types of Bets. Provisions of this Game Plan regulating AKO Bets, MatchCombo Bets and SOLO Bets, also apply to individual AKO Bets, MatchCombo Bets and SOLO Bets placed within "Multiple Bet" unless otherwise provided in the preceding provisions.

7.4 MatchCombo Bets are Bets simultaneously on two to seven Betting Opportunities from the same Betting Event. The Odds of the MatchCombo Bet are calculated by the Operator's algorithm based on the dependencies among the Betting Opportunities selected by the Participant. The Participant, after he selects the Betting Opportunities, will see the Odds of the MatchCombo Bet and decide if he wants to bet on it. MatchCombo Bets may be placed either before or after the

start of the Betting Event. If a MatchCombo Bet includes one Betting Opportunity that is cancelled or declared void, then the entire MatchCombo Bet is cancelled or declared void.

7.5 "SuperKombi" is a type of Bet based on the "Multiple Bet". The Participant who bets "SuperKombi" proceeds in the same way as for "Multiple Bet", with the only difference being that it will group some or all of the Betting Opportunities into the "Groups". A "Group" is a set of multiple Betting Opportunities designated by a Participant. The Odds of a "Group" is calculated by multiplying the Odds of the individual Betting Opportunities included in the "Group". For the purpose of the "SuperKombi" Bet, each "Group" is considered to be a single Betting Opportunity, with the total Odds calculated as per the previous sentence. For clarity, the "Groups" are marked alphabetically. Winning limits for individual bets in the "SuperKombi" are considered by the total number of Betting Opportunities, i.e. including all Betting Opportunities in the "Groups". Incorrect tip in the "Group" makes incorrect tip of the whole "Group". The Participant is entitled to a Winning for each winning Bet in the "SuperKombi". Unless otherwise provided in the preceding provisions, all provisions applicable to the "Multiple Bet" and other general provisions of this Game Plan shall apply mutatis mutandis to the "SuperKombi" bet. Provisions of this Game Plan regulating AKO Bets, MatchCombo Bets and SOLO Bets also apply to individual AKO Bets, MatchCombo Bets and SOLO Bets placed within "SuperKombi" unless otherwise provided in the preceding provisions.

7.6 The Pool Bet is based on the fact that the Participant, upon fulfilling the predefined conditions, wins even if there is one mistake on the Ticket of his/her AKO Bet, which is composed of at least 10 Betting Opportunities. On the Ticket, these Pool Bets are listed together with the AKO Bet and the odds for this Betting Opportunity marked as a Pooled Bet are less than or equal to the lowest odds of the other Betting Opportunities placed on the Ticket. The Pool Bet is automatically assigned to the Betting Opportunity with the lowest odds. However, if more than one Betting Opportunity has the same lowest odds, the Participant will determine to which of these Betting Opportunities the Pool Bet is assigned. If the Participant correctly identifies all Betting Opportunities, the odds of the Betting Opportunity identified as the Pool Bet will be included in the winnings. If the Participant fails to identify only the Betting Opportunity identified as a Pool Bet, the winnings will be determined from the odds of the correctly identified Betting Opportunities, without further reduction of the winnings. If the Participant incorrectly designates a Betting Opportunity other than the Betting Opportunity designated as a Pool Bet, the wagered Ticket becomes non-winnable.

7.7. For Premium Bets, the possible winnings may be increased by way of a percentage increase. The conditions for granting such an increase must be published in advance and also recorded in the Central database of the system. A Participant may only place a Premium Bet if the predefined conditions are met.

8. OFFICIAL RESULT

8.1 Published Official Result may not be changed, unless stated explicitly otherwise by this Game Plan. The Operator has the right to change the published Official Result in the case it was published incorrectly by the Operator, in which case the Operator has the right to change it so that it is in line with the sources chosen by the Operator for determination of the Official Result. Operator also has the right to change the published Official Result in the case the Official Result has been provided incorrectly by the sources chosen by the Operator for determination of the Official Result.

8.2 For Betting Events with precisely stated game time in advance, the Official Result is considered to be the result achieved in the field, circuit, track, etc., after such precisely stated game time in advance has expired regardless of any potential extra time, shoot-outs or any other additional changes of the achieved result (e.g. disqualification, loss by default, etc.), unless Operator's Application explicitly states otherwise.

9. BETS EVALUATION

9.1 If the Betting Event takes place later than on originally published calendar date by the competent authority or the Official Result of the Betting Event is not announced by the competent authority for whatever reason on the same calendar day when it took place, Operator cancels Bets accepted in connection with that Betting Event. Bet remains valid in the case that the Betting Event is interrupted or postponed but is finished within the same calendar day of its original start. In the case that a Betting Event is not finished, only the Bets on those Betting Opportunities results of which are clearly determined at the time of termination of the relevant Betting Event (e.g., the team scores a goal, first yellow card) will be evaluated. If a Betting Event gets interrupted after start, and does not resume, or Official result will not be available within the same calendar day of its original start, all Bets accepted in connection with such Betting Event will be cancelled and refunded.

9.2 Clause 9.1 does not apply to the following Betting Events, in which cases the rules set in this clause 9.2 apply:

- Tennis: Bets accepted in connection with Tennis Betting Event will only be cancelled by the Operator if the Betting Event is not resumed or finished within the end of the respective tournament at which it takes place.
- Qualification and "Winning a Trophy" Betting Events. Bets on Betting Opportunities related to such Betting Events Betting will be evaluated as soon as the Official Results are available.
- Football: In case a football Betting Event is not finished, all Bets will be cancelled except for the Bets on Betting Opportunities the result of which has already been clearly determined prior to the termination of the respective Betting Event, or Bets on Betting Opportunities the Official Result of which has been declared by the respective governing body prior to abandonment of such Betting Event. In that case, bets on match winner and so called double chance Betting Opportunities (e.g. 1X, 2X, 12) are evaluated according to the Official Result (if available) and Bets on all other Betting Opportunities are cancelled, unless their results have already been clearly determined at the time of the termination of the Betting Event to which they relate. For example, Bets on first goal scorer or time of the first goal Bets will not be cancelled provided a goal has been scored prior to the termination of the respective Betting Event.

9.3 If the Betting Event takes place sooner than on the originally published date by the relevant body, only Bets made before the real start of such Betting Event remain valid. This does not apply to the LIVE Bets.

9.4 If for any reason a Bet which is not a LIVE Bet or Bet on Betting Opportunity of a long-term nature, is inadvertently accepted by the Operator on a Betting Event which has already commenced, the Operator declares such Bet void. Any Bet, including a LIVE Bet and Bet on Betting Opportunities of a long-term nature, placed at a time when the outcome of Betting Event to which the Bet relates is already known, will be declared void by the Operator.

9.5 In case of withdrawal or disqualification of an individual or team at an unfinished or carried out Betting Event, Bet on the winning or ranking of such individual or team shall be evaluated as a loss. Bets against the victory or Bets on "no-ranking" of such individual or team shall be evaluated as a winning, unless the Operator explicitly states otherwise in the Application.

9.6 In case of a long-term sporting Betting Event being terminated prematurely for any reason, the Operator reserves the right to evaluate Bets on Betting Opportunities of a long-term nature, based on the existing official standings or the official champions as declared by the respective official governing body, regardless of the number of the remaining scheduled matches and regardless of the playoffs, if any. For the purposes of evaluation, in cases where there is no official declaration of the official standings or of the official champion by the competent governing body

of the respective sporting event, the Bets will nonetheless be cancelled, regardless of the number of the remaining scheduled matches and regardless of the playoffs, if any. The cancellation will be applied to Bets on Betting Opportunities results of which have not been clearly determined before the premature termination of the Betting Event to which they relate to. The Bets on Betting Opportunities results of which have been clearly determined before the premature termination of the sporting Betting Event will be evaluated according to their Official Result. The Operator will not proceed with evaluation of Bets in cases where there are pending appeals or court decisions regarding the official standings or the official champion of the Betting Event on which the Bets were placed, pending final determination of the relevant appeal or submission (i.e., without the possibility of appeal against such decision).

9.7 If an individual or team does not participate in the Betting Event at all, Bets on winning or ranking of that individual or team shall be cancelled and/or evaluated with the Odds of 1.0, and the Bets shall be returned to the Participant. The same is applied if such individual or a team is quoted incorrectly in the Betting Opportunity or Betting Opportunity itself is quoted incorrectly.

9.8 In the case of a simultaneous victory or the same position of two or more individuals or teams on a place which is decisive for the Bet, the Odds of such Betting Opportunity shall be reduced in such a way that the Odds is divided by the number of individuals or teams on the same position. Bets against the victory of participants on the divided first place are considered as a loss.

9.9 Bets on Betting Opportunities of a long-term nature remain valid also in the case of an additional change of place where the Betting Event is held. Equally in the case of change of place where the Betting Event is held due to abandonment of the right to play on the home environment, due to the closure of the home environment or if the Betting Event will take place at a neutral location.

9.10 If the Operator has the right, under this Game Plan, to cancel the placed Bet, such Bet shall be returned to the Participant. This procedure shall apply to SOLO Bets. AKO Bet may only be cancelled and the Bet shall be returned to the Participant by means of this procedure if Operator decides to cancel all Betting Opportunities included in the relevant AKO Bet. Otherwise, the AKO Bet remains valid while the cancelled Betting Opportunities which were cancelled under this Article shall be evaluated with the Odds of 1.00.

9.11 One AKO Bet may not include such Betting Opportunities that are mutually supportive. This means such Betting Opportunities for which the result of one Betting Opportunity influences the probability of a result of another Betting Opportunity, or the Betting Opportunities are identical. In the case that due to error such Bet is accepted, in the case of a Winning, the Bet and Ticket on which it is included shall be evaluated with the Odds of 1.00.

9.12 In the case that the Operator suspects a breach of this Game Plan or the Gambling Act by the Participant, the Operator has the right to suspend pay-out of the Winning as well as to suspend return of the Bet and deposit to the Participant for a maximum period of 60 days from the date of publication of the Official Result. In case such suspicion is confirmed, the Operator has the right to declare such Bet void.

9.13 In the case of identification of incorrect description of a Betting Event in the Odds Offer, the Operator has the right, under this Game Plan, to cancel and/or evaluate affected Bets with the Odds of 1.0 and return them to the Participant.

9.14 All Betting Opportunities on football players scoring would always concern the in advance determined playing time in the respective football Betting Event. Own goals (based on the official organizing authority) do not count and will be ignored unless stated otherwise. Bets placed on Betting Opportunities of 'first goal' scorer will be declared void and Participant's Bet will be refunded, in the case of a football player entering the Betting Event as a substitution, after the first goal has been scored. In case the first goal is an own goal, it is ignored, so relevant Bets placed on Betting Opportunities for the first goal scorer stand unaffected. Bets placed on Betting Opportunities of 'last goal' scorer stand unaffected for every football player that participates in the Betting Event, regardless of the time he comes into the Betting Event. Bets placed Betting

opportunities of 'anytime goalscorer' stand unaffected for every football player that participates in the Betting Event, regardless the time he comes into the Betting Event.

If a football Betting Event (football match) is abandoned (i.e., interrupted and not restarted nor rescheduled) the following applies to Bets on 'goals scorers' Betting Opportunities in such football match:

- If there has already been a goal scored at the time the Betting Event was abandoned, the Bets on 'first goal' scorer Betting Opportunities stand unaffected, while the Bets on 'last goal' scorer Betting Opportunities are declared void and the Bets will be refunded.
- If a Betting Event is abandoned after a football player has already scored, then all Bets placed on Betting Opportunities for 'anytime goal' scorer concerning that football player will be evaluated as winning.
- Bets placed on Betting Opportunities for football players that didn't score until the Betting Event was abandoned will be declared void and Bets will be refunded.
- Bets placed on Betting Opportunities for the "to score 2 or more goals" shall be evaluated as winning if the selected football player scores two or more goals until the Betting Event was abandoned.
- Bets placed on Betting opportunities for the "to score a Hat-Trick" shall be evaluated as winning if the selected football player scores two or more goals until the Betting Event was abandoned.

10. RIGHT TO WINNINGS

10.1 The Participant shall be entitled to Winnings in the case that following conditions are fulfilled simultaneously:

- Operator has published all the Official Results of all the Betting Opportunities contained in the relevant Ticket;
- this Game Plan and the Gambling Act have not been violated in any way,
- the conditions of this Game Plan for cancelling the Bet or declaring the Bet void are not fulfilled, and
- the Participant has correctly predicted all results of all Betting Opportunities contained in the relevant Ticket.

11. WINNINGS PAY-OUT

11.1 In case of fulfilling all conditions mentioned in the Article 10 of this Game Plan the Winning shall be paid out to the Participant's User Account immediately, however no later than in 60 days from when Official Results of all Betting Opportunities contained on the winning Ticket, which are decisive for determining the Winning from the relevant Ticket, have been published.

11.2 Winning is paid out when it is credited to the Participant's User Account.

11.3 In the case that the Winnings is paid out to the Participant's User Account unjustly, the Operator has the right to deduct the amount equal to such unjustly paid-out Winnings from the Participant's User Account, even without his consent. The Participant will be informed of such deduction. If this deduction results in the User Account getting into overdraft, the Participant is obliged to settle such debt. Operator has the right to refuse carrying out operations requested by the Participant until the debt is settled. In the case that the Participant does not meet his obligation, the Operator reserves the right to terminate the Contract and use all available legal means to recover the debt.

11.4 Operator has the right to suspend the Winnings pay-out if there is a suspicion about regularity of the Participant's Bet for a period of 60 days from when all conditions for Winning payout under this Game Plan have been met. If this suspicion is confirmed, Operator has the right to evaluate such a Bet as void. In such a case, the provisions of Article 11.3 of this Game Plan

may apply.

11.5 Operator is entitled to suspend Winnings pay-out in the case that participation on Odds Bet has been evaluated as a suspicious transaction within the meaning of the AML Act, for a period set out in the AML Act.

11.6 Operator is a member of the International Betting Integrity Association ("IBIA"), a non-profit organisation that reports irregular betting patterns and possible instances of a Betting Event manipulation to the relevant sports federations. As part of that membership, Operator is a full participant in its early warning system which is geared towards identifying any such betting behaviour. In the event of receiving a warning from IBIA or sending a warning to IBIA, Operator reserves the right to:

(i) suspend the offering of Betting Opportunities on any Betting Event to which the above-mentioned warning relates; or

(ii) suspend Winnings from Bets on any Betting Event to which the above-mentioned warning relates, until the integrity of such Betting Event has been confirmed by the relevant sports federation or governing body but no longer than the period specified in Article 11.1.

In case the suspected Betting Event manipulation is confirmed by the relevant sports federation or governing body, the Operator reserves the right to declare void a Bet on any Betting Event which has been confirmed as being manipulated.

12. CASHOUT

12.1 On the basis of an agreement between the Participant and Operator, a Bet may be changed by using CashOut.

12.2 The Participant will not be allowed to use CashOut in the case that one or more of the following facts are fulfilled:

- the placed Bet has been evaluated as a loss,
- no Betting Opportunity included in the placed Bet has been evaluated yet ,
- the placed Bet contains a Betting Opportunity that has not been evaluated, which is currently not available in the Bet Offer.

12.3 In the case of a Participant's request for using CashOut, Operator shall suggest conditions of CashOut agreement via the Application. The CashOut agreement shall be established at the moment of the Participant's accepting conditions proposed by Operator via the Application. Within the CashOut agreement Operator proposes to Participant the new amount of potential winning after the Odds of already evaluated and correctly guessed Betting Opportunities on the Ticket have been adjusted with the CashOut coefficient. Newly proposed amount of the potential winning may never be higher than the amount of potential winning of the original Bet. In the case that the Participant shall not agree with the proposed conditions of the CashOut Agreement, he is not obliged to accept the offer to use the CashOut; in such case the original Bet shall remain valid in the form it has been placed.

12.4 The once concluded CashOut agreement under the conditions above is binding and unchanging for Participant and Operator. All concluded CashOut agreements shall be stored in the Operator's Central System.

13. VOID BET

13.1 Bet may be declared void by Operator in the following cases:

- The Bet (with the exception of the LIVE Bet and a Betting Opportunity of a long-term nature) has been placed after the Betting Event has started.
- Match which the Betting Opportunity has been related to has been played in the opposite way, i.e. the team stated in the Betting Opportunity as the away team had the advantage of the home environment, unless stated otherwise. This rule does not apply to matches played at a neutral field.
- In the case of Bet on better ranking of one of two competitors if none of them is classified in the competition.
- When errors occur where the offered Odds for Betting Opportunities of the same Betting Event enables the Participant to gain so-called certain win. For example, where Odds for individual Betting Opportunities of the same Betting Event are listed so that the Participant with proper distribution of Bets on individual Betting Opportunities of the same Betting Event cannot lose.
- Betting Event has either not started at all or has restarted and finished after the date laid down by Operator but at the restart disregarded the fact when and/or at what score it has been interrupted.
- A Betting Opportunity has been erroneously entered by Operator in the Central System (this does not apply to already placed Bets).
- Due to an error on Operator's part it becomes possible to place a Bet for which the conditions under this Game Plan have not been met or the Bet should not be accepted at all.
- The Bet (including LIVE Bet) has been accepted for a Betting Event the result of which was already known at the moment of Placing the Bet.
- There is a justified suspicion that the Betting Event has been influenced by somebody and this suspicion is then confirmed.
- If a tennis match has not been finished. This shall not apply to Bets on Betting Opportunities regarding Betting Event the result of which is already clearly determined at the time of withdrawal.
- The Betting Opportunity has lost its meaning due to force majeure (e.g., change of rules of the game) or there have been radical changes to Betting Event conditions, such as a team starting a match with less than the maximum allowed players, match duration changes, change of venue, distance of a race changes, change to match structure (eg. amounts of periods in hockey games or halves in a football game) etc.
- There have been such changes to the Betting Event, that the exact result on which the Bet has been placed could not be reached.
- In other cases laid down by this Game Plan.

13.2 In the case of fulfilment of the conditions set out in Article 13.1 of this Game Plan, the Bet shall be returned to the Participant in case of SOLO Bets. AKO Bet is considered and will be declared void if all the Betting Opportunities contained in it are void. Otherwise, AKO Bet shall remain valid, while Betting Opportunities which were declared void in accordance with the Article 13.1 of this Game Plan shall be evaluated with Odds of 1.0. In the case of AKO Bet, the Bet will be returned if all Betting Opportunities included in it are declared void.

14. COMPLAINTS AND RECLAMATIONS
